

QUALITY AND ENVIRONMENTAL POLICY

Syte Group is fully aware of the importance of offering the best service for commercialization of lighting systems, as well as respect for the environment. In order to fulfill this commitment, the company's management allocate the necessary resources to offer a service with all the guarantees of success, safety and environmental care. The company has implemented the ISO 9001 and ISO 14001 Standards under the following objectives:

- We are committed to obey the laws, regulations, or any type of regulation for the Environmental Protection in relation to the activity of commercialization of lighting systems in all its facets.
- SYTE Group is a company with extensive experience, so it has an important know-how about lighting products, which combines with the best technicians, logistics, after-sales and technical advice.
- We are committed to continuously improve the effectiveness of the Integrated System by fostering relationships with the client.
- The company maintains an effective communication with the client in order to know their expectations and know the correct functioning of the products supplied.
- There is a commitment to evaluate the environmental aspects generated by our activity, in order to minimize the impacts on the environment as much as possible and prevent pollution.
- All our objectives and goals set related to quality and environment will be continually reviewed.
